## COMMERCIAL OPEN HEIFERS

The commercial heifers come from the heart of our commercial herd. They were weaned in October, had two rounds of Bovi-Shield Gold 5 and 7-way blackleg vaccine and were poured with Ivermectin. They were all palpated on March 8 and determined to be open and ready to breed. All Woodbury bulls and heifers are tested BVD-PI Negative.

\*\*There is no Lot 79, she is OUT
